## Skills

- Front-End Development: HTML5, CSS3, JavaScript, React
- UI/UX Design: Figma, Sketch
- Responsive Design
- Wireframing and Prototyping
- User-Centered Design
- Problem-Solving
- Attention to Detail
- Collaborative Teamwork

## Objective

Passionate Front-End Web Developer and UI/UX Designer seeking to leverage creativity, technical skills, and a strong eye for design to create exceptional user experiences. Eager to contribute my expertise and enthusiasm to a dynamic team.

## Experience

While I am at the beginning of my professional career and do not have formal job experience, I am highly motivated to gain practical experience and make a positive impact. To demonstrate my commitment to your company's goals and to prove my capabilities, I am willing to work for an initial period without compensation.

## Education

Self-Taught Web Developer with a strong commitment to continuous learning and personal growth.

## My works

Projects:

1. Face book Website (2023)

<https://princecreatez-face-bk-app.vercel.app/home.html>

- Designed and developed the face book website using HTML, CSS, and java script, for personal growth and practice.

2.. Getlinked Website (2023)

<https://get-linked-hackaton.vercel.app/>

- Developed a full-stack web application for the GetLinked Tech Hackathon, showcasing my skills in front-end and back-end development. This project involved innovative solutions to real-world problems.
